MicroPort Medical (Shanghai) Co., Ltd. Renamed Shanghai MicroPort Medical (Group) Co.,Ltd. Officially

On September 24, 2012, the date of two-year anniversary of being listed on the Hong Kong Stock Exchange, MicroPort Medical (Shanghai) Co., Ltd. has officially been renamed Shanghai MicroPort Medical (Group) Co., Ltd.. The change of name is to reflect the company's diversification strategy and the growing number of different medical devices offered by the company.

Currently, there are five wholly-owned subsidiaries of the group, including MicroPort Orthopedics Shanghai Co., Ltd., MicroPort EP MedTech Shanghai Co., Ltd., MicroPort Lifesciences (Shanghai) Co., Ltd., MicroPort Medical (Jiaxing) Co., Ltd Co., Ltd., and MicroPort Surgical Co., Ltd..

MicroPort Firebird 2 Registered Successfully in Uruguay

Shanghai, August 29, 2012—MicroPort Firebird2, Rapamycin-Eluting Coronary CoCr Stent System, received its first registration approval in Uruguay with validity of five years.

Firebird2 is the sixth MicroPort product registered in the country after Firebird, Mustang, JIVE、Hercules-T, and Tango. Till now, Firebird2 has already received its medical product registration approval in nine countries.

MicroPort International Exchange Activity Held Successfully

Shanghai, August 27-31, 2012—MicroPort held a weekly international publicity and training on MicroPort's interventional and endovascular products. The subject is on the theme of Minimally Invasive Treatment of Aortic Disease and Technology of

Hybrid Operation. 45 physicians and doctors specializing in peripheral and cardiac fields from Brazil, Argentina, Ecuador, Chile, Thailand, and Indonesia were invited.

During the activity, Professor Zaiping Jing, from Changhai Hospital, demonstrated two TEVAR (Thoracic Endovascular Aortic Repair) surgeries and one left subclavian artery stenosis stentplasty operation by using MicroPort Hercules™ Thoracic Stent-Graft System, and then he gave a presentation on the Treatment of Complex Thoracic Aortic Dissection. Professor Lizhong Sun, from Anzhen Hospital, published the Clinical Results of Head Arm Vascular Reservation in Early Stage, and demonstrated three complex aortic dissection operations by using Cronus™ stent graft. Professor Lianjun Huang demonstrated two operations by using Hercules™ Thoracic Stent-Graft System and one operation via Hercules™-B Bifurcated Stent-Graft System, and then he held an academic sharing.

This activity not only offered an interactive learning environment to these doctors from home and aboard, but also provided a favorable platform for MicroPort endovascular business to advance overseas. Some foreign doctors and physicians highly praised

the meeting. "Through the face-to-face interaction and learning activities, it helps us to develop a deeper understanding and appreciation on MicroPort products and gives us more inspiration on treatment strategies, which will offer us more confidence in clinical usage."

MicroPort HR Team Awarded as the 2012 Outstanding HR Management Team in Medical Industry

Shanghai, August 28, 2012—MicroPort HR Team was awarded The 2012 Outstanding HR Management Team in Medical Industry, and Outstanding HR Management Practice from the activity "2012 New-Power Summer Camp" held by MicroPort in July.

The award was initiated by TopHR, which is a leading professional HR media in China. Aiming at exploring professional marketing strategies and facilitating total-solution to HR service providers, this activity delivered valuable HR information and interactive communication platform for HR managers in medical industry.

MicroPort was proud to accept these awards as they represent the professionalism of MicroPort HR department, and it helps enhance brand image of MicroPort as well.
